Place : Ghansoli

Date:

PROF. DEEPTI.V.CHANDRAN

(Guide)

Dr. K.T.PATIL

(Head of Department)

Dr.S.S.CHAVAN

(Principal)

ACKNOWLEDGMENT

The Presentation Report on "**CUSTOMER INFORMATION SYSTEM**" is outcome guidance, moral support and devotion bestowed on me throughout my work. For this acknowledge and express my profound sense of gratitude and thanks to everybody who have been a source of inspiration during the seminar preparation.

First and foremost I offer our sincere phrases of thanks with innate humility to Prof. Deepti Chandran of Smt. Indira Gandhi College of Engineering and guidance of my seminar for providing help whenever needed. If I can say in words I must at the outset our intimacy for receipt of affectionate care to Smt. Indira Gandhi College of Engineering for providing such a simulating atmosphere and wonderful work environment.

ABSTRACT

The CUSTOMER INFORMATION SYSTEM is typically based on Graphical User Interface and Database Connectivity. The primary objective of this system is that it basically keeps the record of the multiple employee's data along with their ID. Any organisation could definitively take advantage of a systematic organised customer information.
